# ART BONANZA

stichting het kunst—gemaal

**Where Creativity Explodes**

## Festive opening: November 28

This winter Stichting Het Kunstgemaal transforms into an exuberant, sparkling, and joyful world full of big and small treasures, unexpected gems, from more than forty artists and designers.

**ART BONANZA** offers a colorful mix of forms and styles, featuring both young and older, established and lesser-known artists and designers. From ceramics and drawings to perfume, lighting, paintings, and scarves, and from objects, jewelry, tableware, and vases to sculptures, bags, and photography. The materials are equally diverse: glass, wood, textiles, paper, plexiglass, fabric, ceramics, plaster, plastic, and earthenware.

Each artist and designer has their own unique signature but shares one important common trait: all works are for sale under 500 euros. Because art does not have to be unattainable.

**ART BONANZA** is a celebration of looking, wandering, and collecting. Discover something you didn't know you were looking for: a surprising gift or something special for yourself. Art and design to fall in love with and to take home.
